Academic Year

INTRODUCTION

Avicenna International College (AIC) provides programs at secondary and post-secondary levels. Hungarian and international students join AIC to enjoy a world-class education. AIC is an elite college located in the heart of Budapest with Hungarian, British, American, and international programs. Students are at the center of all our programs. AIC is well known for its expertise in language and science education in English. Our NCUK and Medical programs are among the best in Europe.

AIC Academic Programs and Accreditations:

Secondary Programs:

- Pre-International High School Program (Pre-IHSP)
- International High School Program (IHSP)
 - IHSP 9 (Grade 9)
 - IHSP 10 (Grade 10)
 - IHSP 11 (Grade 11)
 - IHSP 12 (Grade 12)
- Pearson/Edexcel International A-level Program:
The International A-Level (IAL) program allows AIC students to earn British high school certificates that open the gates to universities in the UK and the entire world.
- Edmentum: AMERICAN SECONDARY EDUCATION.
AIC provides a joint program to grant a US accredited diploma parallel to our Hungarian Secondary Studies.
- COLLEGE BOARD:
AIC-SAT is an accredited center for SAT and SAT Subject exams accepted all over the world and required for US Colleges and Universities.

Post-Secondary Programs:

- Avicenna Medical Foundation Program (AMFP)
- NCUK IFY Science Stream (NCUK-SS)
- Business Foundation Program (BFP)
- NCUK IFY Business Steam (NCUK-BS)
- Technical Foundation Program (TFP)
- NCUK IFY Engineering Stream (NCUK-ES)
- English Foundation Program (EFP)

- English Foundation Program (EFP)
- German Foundation Program (GFP)
- Pre-Master Foundation Program (PMP)
- Pre-PhD Foundation Program (Pre-PhD)
- FEDE: THE FEDERATION FOR EDUCATION IN EUROPE
Degree-granting, career-oriented programmes and European Language Exams that are valued by European job market actors.
- CAMBRIDGE ASSESSMENT: ADMISSION EXAMS BY CAMBRIDGE
AIC administers the Cambridge Assessment exams required for Cambridge, Oxford, and most UK Universities.

MISSION

Avicenna International College prepares and educates its students to be responsible citizens, enjoy learning, develop academically, and pursue a successful higher education. The passion for knowledge and lifelong learning is an integral part of our education. Non-degree education/training, expansion of learning world languages, art and career training, the publication of books and extracurricular materials, the online, and multimedia content development are among the missions of AIC. Avicenna International College is dedicated to being a partner of the success of its students all around the world.

VISION

Avicenna International College will be among the most respected international academic and scientific centers which strive to globalize its modern Avicenna-minded approach to the development of human capacities and will become a pioneer model in this respect. AIC will become a leader among international schools and colleges, recognized for its outstanding students, dedicated faculty, and rich educational programs.

VALUES

Avicenna is a caring, safe, and highly academic community with a focus on “holistic approach”, “problem-solving” and “interactive learning”. Avicenna promotes mutual respect for self and others and involves students in building a home away from their home. Avicenna International College is dedicated to being a partner of the success of its students all around the world.

THE MESSAGE OF THE PRESIDENT:

I am delighted to welcome you to Avicenna International College (AIC). We celebrated our 25th anniversary in 2020, a quarter of century experience in international education in Budapest. Today, more than any time, there is a need for a unique educational model that can meet the needs of the young generation and also satisfy the standards of international education. Not even the difficult times of the Corona pandemic should be able to take away our attention from this important mission. When you joined Avicenna, my colleagues, you and I decided that we will take this responsibility together, and we all will work hard to reach the goals and deliver the best. Our teachers are dedicated, well-trained, experienced and proud to take part in this unique task. Yet, it is YOU who will be in the center of all our academic and educational efforts. It is all about YOU. We are here because YOU are here. We will work together, we will learn together, we will grow together. We are partners and we would like to be a partner in your "success" and nothing less. Future is yours and we have rendered ourselves to play our parts in helping you raise as the responsible citizens of the world. I guess this is the best time to understand and feel the idea of "citizen of the world". When could we better understand the interconnection of our world? When could we see better the effect of human action in a far part of the world on the lives of other people on the other side of the planet? Today we see and feel it. We should all work, study and learn together for a better life tomorrow. We work "today" to build "tomorrow". Many of our past students are now among successful medical doctors, engineers, and business experts in Europe, the United States, or other countries. We are always proud and happy to hear about the success of our students. AIC has proven to be the institution in Europe to prepare non-European students for medical schools. At AIC, we target a 100% success rate, no student is neglected or left behind. Therefore, I would like to encourage you to start this academic year with full energy and hope.

At Avicenna, we place great emphasis on “problem-based learning”, “interactive education” and “critical thinking”. We will not only teach biology, chemistry, mathematics, and other subjects, we will teach you how to learn these subjects, how and where to find answers to your questions, how to solve problems and feel confident enough to bring new ideas to the attention of your teachers and classmates. This is our Avicenna methodology for education. We believe that you can and should explore your potentials and capacities. You should achieve maximum development of your competencies with the help of educators. High academic achievements, successful higher education, and preparation for undertaking independent social roles are among our goals for Avicenna students. At AIC, we provide Hungarian, British, American, and international education in the heart of Budapest. Avicenna is your “Home away from Home”. Welcome home, study hard, stay happy and healthy.

Dr. Shahrokh MirzaHosseini,
Founding President
Member of the European Academy of Sciences and Arts

THE MESSAGE OF THE HEADMASTER:

Dear Students,

Welcome to AIC Hungarian-English Bilingual High School!

By entering our school, you can join a community whose creed is excellence. Our patinated building, decorated with towers, stands out invitingly from a green island that is the exterior equivalent of your inner peace. Its welcoming appearance suggests that you can experience walking and learning in your inner atmosphere, learning step by step about the outside world.

It is a place where the timeless knowledge of generations is intertwined in the cultural interaction of the international environment. This perfect balance encourages learning in a noble competition. The school's enthusiastic community, successful students, and deeply committed teachers unanimously believe that knowledge is international and a prerequisite of values. It gives support, earns respect and dignity, while opening perspectives never dreamed of before. With fearful care, we consider the future and success of our students to be an essential requirement, so we provide the best of our knowledge in everything.

Opening a door we open gates and light a lantern. We are justifiably proud that for 25 years now, in the heart of Budapest, we have sent thousands of happy young people with sparkling eyes on their way to a well-deserved better future to transmit that light further.

The Hungarian graduation high school program is just one element of a myriad of unsuspected opportunities. We provide choices. Our international secondary programs (A-level, American diploma) and our higher education offerings are the key to making cross-border dreams come true. You have chosen AIC and now you are laying the foundation for a well-grounded and reliable bright future of your choice!

Mr. Andonis Todosie
Headmaster/Principal

2021/2022 Academic Year

Academic Calendar at a Glance:

The Academic Calendar presents the most important dates and events during the 2020-2021 academic year. These dates and events may be subject to change that will be communicated to all students via email.

The Education Authority of the Hungarian Government publishes a general academic calendar concerning all secondary schools in Hungary. This academic calendar can be seen in the following link:

https://www.oktatas.hu/kozneveles/digitalis_koznevelesi_naptar

2022 June 12 Sunday	Excursion to Lake Balaton with train – Fonyód, Badacsony (full day program)

Internal and External Exam Dates and Retake Exams:

While you study at AIC, you will participate in two types of exams and tests. Internal Exams refer to the exams that are organized by the AIC teachers and faculty. These exams usually include WPT (Weekly Progress Test), Midterm, Semifinal and Final.

External exams are the exams that are usually managed by AIC in the premises of college but they are owned and organized by external bodies. Examples of "External Exams" are the language exams of NCUK ELT or A Level exams or IMAT and BMAT. You will take some of these exams during the course of your study at AIC. By completing these exams you will be able to get a second high school diploma or language certificates or other international qualifications.

In many cases you will have the chance to retake an exam in order to improve your scores or in case you have missed an exam for acceptable reasons. In some cases you can not repeat an exam.

Please refer to the Academic Calendar for the scheduled exams of the academic year. Apart from the above exams, all students should take part in the WPT (Weekly Progress Test) on Monday mornings. This test will review the material taught during the previous week.

Also the teachers can organize tests, projects and other quizzes in each subject during the year. Usually these tests are mentioned in the Detailed Syllabus sections.

Every student will have the opportunity to redo the exams of AIC. These Retake Exams will be announced throughout the Academic Year.

Assessments and Requirements for Promotion to the Upper Year:

Avicenna International College operates based on the educational rules and regulations of Hungary and is in accordance with the educational regulations of all international accreditation bodies.

In order to be considered for a promotion to a higher grade at the end of this academic year, you should fulfil all of the following requirements:

1. Attend all the classes regularly (in-campus and on-line).
2. Do not have unjustified or justified absences more than what is allowed by law.
3. Participate in classes actively and contribute to the academic community of your class.
4. Take all the tests and exams and pass them successfully.
5. Prepare the science projects which are given to you by college or your teachers.
6. Participate in external community works and activities when applied to you.
7. Take the required differential exams (for those international students who bring their academic records from outside Hungary)*.

** Note that international students arriving in the middle of their secondary studies must take differential exams (also called equivalency exams) in subjects that are missing from their school transcripts from outside Hungary compared to the AIC International High School Program curriculum and list of subjects (for the list of AIC International High School Program subjects see the relevant sections of the Student Handbook). Students who arrive at AIC IHSP in the middle of their secondary studies must be prepared to work extra on 2 subjects in order to successfully prepare for the Érettségi exams at the end of Grade 12: Hungarian language and History.*

By successful completion of the above requirements you will be promoted to a higher grade officially. You will be granted the High School Diploma upon successful completion of the requirements of IHSP Grade 12.

By completing the requirements of IHSP Grade 12 you are eligible to take the Érettségi exams to obtain the Certificate issued by the Hungarian Educational Authority. Parallel to the Érettségi, you can also complete International A-Level subjects or the American High School Diploma Program with SAT, you will also be granted the relevant diploma.

Second High School Diploma (A-Level, American Diploma):

High school students at Avicenna International College usually are expected to earn TWO high school diplomas when they graduate from college. All our students normally register for the Hungarian-English Bilingual International High School Program and take a second one in conjunction.

AIC offers the following Secondary Education programs:

1. Hungarian-English Bilingual International High School Program or Gimnázium which leads to ÉRETTSÉGI high school diploma.
2. International A-Level high school diploma (PEARSON).
3. American High School Diploma (EDMENTUM).

The classes are organized in a way that you will learn all the subjects in English and will be prepared for the exams which are administered by the Hungarian government or our international partners. This does not mean a double amount of work because the syllabus has been intelligently set to meet the requirements of both diplomas in any system. You will of course need to take the relevant exams and meet the requirements set forward by the degree awarding body.

The Headmaster, Counsellors and the Student Center will be ready to help you in the process of your studies during your years at AIC.

Pastoral Services and Extracurricular Activities

The Student Center and the Admission Department at the Avicenna International College together with our teachers and counsellors provide pastoral services to all our Hungarian and international students. We provide books, handouts, hotel and accommodation services, airport pickup, breakfast and lunch, medical insurance and assistance, sport activities, university counselling and several other services to all our students.

Schengen Visa

Avicenna International College is located in the Schengen area. Students arriving from outside the EU will be guided and introduced to the Immigration Authority in Budapest to apply for a visa.

Residence Permit

When you apply to AIC and after you have been admitted and you take all the steps, we support your application for a Hungarian Schengen residence permit.

Airport Pick-up

When you arrive at Budapest Airport, one of our colleagues from the Student Center will be waiting to welcome you. Our colleagues can arrange a pick-up only if they know in time your exact arrival date and time.

Accommodation

When you arrive in Budapest, you will be taken to your temporary residence in a hotel of your choice. From the next day of your arrival we will help you find a suitable residence during your studies in Budapest. Hotel Krisztina is the partner hotel of AIC.

Medical Insurance

It is compulsory to have an insurance policy for the duration of your studies in Hungary. If you are from an EU country, your home insurance is also valid in Hungary. Otherwise, you will receive your insurance contract from the Student Center to be included in your student file.

Vaccination and Medical Care

Most universities and the Immigration Authorities require the students to provide their vaccination report as well as a health certificate issued by a medical doctor. Sometimes these documents are required at the time of university application.

Books

AIC pays special attention to the books and hand-outs that we provide for our students. These books must be right for each purpose and help our students in their endeavor to learn the subjects they will need at the university. Many books have been edited by our teachers and published by Avicenna publications.

Library

Avicenna International College operates a library on the third floor. Students are free to use the library for their studies or use the books which are there on open shelves. Close-by libraries are also available, e.g. Semmelweis Library, Szabó Ervin Library.

Appointment Booking System

We are happy to warmly welcome you to Avicenna International College. It is important that we all learn time is important and we should be on time and respect order. The Booking System is designed for everyone to manage their time efficiently and for you to book your appointments with our faculty and staff. Book your appointments via the following link:

<https://avicenna.hu/appointment-system/>

Restaurant

AIC operates a fully furnished restaurant to serve its students and faculty. Avicenna Restaurant provides everyday lunch and refreshments during the breaks. Lunch is cooked everyday with extra care according to the taste and desire of our students from around the world.

Sport

All students of AIC high school should participate in Physical Education classes according to their weekly schedule. Other than this all high school and foundation students can enjoy the state-of-the-art facilities and the outdoor and green fields of Orczy Park.

Sociocultural events

AIC organizes several social and cultural activities during the year. We may pay a visit to sick children at the hospital during Christmas bringing them some small gifts, or organize a charity activity to collect some important items for the people in need. We are all Global Citizens and the pain of one member of the human society can cause pain for all of us.

Internet & Wi-Fi

Avicenna International College provides free internet in all areas of the campus. Students use the internet for research and academic purposes. All students must be aware of the AIC Rules and Regulations and GDPR as they are related to internet and email use.

Student Card

All registered students of Avicenna International College will receive an international student card which is valid for the period of the study at AIC.

Campus Access Card

In order to have access to AIC campus, all registered AIC students will get a Campus Access Card. This card will allow you to get into common areas of AIC campus. This card is personal and you should NOT give it to anyone else whether or not a student of AIC. All access times and access points are recorded by a computerized system and face recorders.

Post Services

Students always receive packages via post from their home country. It is often more convenient for them to give the address of college for postal communication as they are not at home during the day.

The parcels which arrive in your name will be collected by the concierge and given to the Student Center. You will then receive an email notifying you about the post services. A 1000 Forint post services fee is charged and your parcel can be collected by you at the time specified.

AIC Policies, Regulations and Protocols:

When you join AIC you accept all the policies, rules and regulations enforced at the Avicenna International College. As responsible citizens we all should follow the prevailing rules and regulations in Hungary and the European Union. We also are considerate and passionate towards all cultures and social norms in our community.

AIC policies, regulations and protocols are to be observed by all students, teachers and staff. You will find the last version of these policies and any new policy on the AIC website. Therefore, it is your responsibility to consult Avicenna's website for the latest changes and additions of these policies.

DETAILED SYLLABUS OF SUBJECTS

It is important for our students and teachers to follow a well-structured program of education. We have developed a detailed syllabus plan for the whole year which is divided into weeks and even sessions. This plan is based on the requirements of the Hungarian government and the international accreditation bodies.

When you follow this plan, you will know exactly what you will learn in each subject during this year. You even know what will be taught in each session during the year. You also have this detailed information both in English and in Hungarian. The references and extra material is also available for you.

The same structure is followed on our online education system. Therefore, you can strengthen your knowledge in each subject by reviewing the material available online.

See appendix 1

LIST OF BOOKS AND RESOURCES

The following books will be used during this academic year. Some of these books may be used for more than one grade. So, please take good care of your books. You should also use the library and internet to get extra material to read.

Hungarian language and literature:

Pre-IHSP:

MS2370-U - Magyar nyelv 9. (Mozaik kiadó)

Grade 9:

MS2370-U - Magyar nyelv 9. (Mozaik kiadó)

Grade 10:

POST-SECONDARY EDUCATION PROGRAMS

- 1. Avicenna Medical Foundation Program*
- 2. NCUK IFY Science Stream*

CREDITS AND SUBJECTS LIST

Avicenna Medical Foundation Program NCUK IFY Science Stream

Subject/module	Sessions/week
Biological Sciences lectures: - General Biology - Cell & Molecular Biology - Medical Genetics - Medical Microbiology - Medical Immunology - Human Physiology	6
Biological Sciences practices	2
Chemical Sciences lectures: - General Chemistry - Organic Chemistry - Biochemistry	6
Chemical Sciences practices	2
English for Academic Purposes	3
Histology	1
Human Anatomy	2
Mathematics	3

DETAILED SYLLABUS OF SUBJECTS

It is important for our students and teachers to follow a well-structured program of education. We have developed a detailed syllabus plan for the whole year which is divided into weeks and even sessions. This plan is based on the requirements of the Hungarian government and the international accreditation bodies.

When you follow this plan, you will know exactly what you will learn in each subject during this year. You even know what will be taught in each session during the year. You also have this detailed information both in English and in Hungarian. The references and extra material is also available for you.

The same structure is followed on our online education system. Therefore, you can strengthen your knowledge in each subject by reviewing the material available online.

See appendix 2

LIST OF BOOKS AND RESOURCES

The following books will be used for this academic year. Please take good care of your books. You should also use the library and internet to get extra material to read.

Biological Sciences:

Cell and Molecular Biology (Avicenna Publications)

Medical Genetics (Avicenna Publications)

Medical Immunology and Microbiology (Avicenna Publications)

Human Physiology (Avicenna Publications)

Biological Sciences Practice Book
(Avicenna Publications)

Biology and Chemistry Interview Practice Book
(Avicenna Publications)

Chemical Sciences:

General Chemistry (Avicenna Publications)

Organic Chemistry and Biochemistry
(Avicenna Publications)

Chemical Sciences Practice Book
(Avicenna Publications)

Mathematics:

Mathematics Practice Book (Avicenna Publications)

Mathematics for the IB Diploma Standard Level (Cambridge University Press), ISBN: 9781107613065

English for Academic Purposes:

Oxford EAP B+1 (Oxford University Press), ISBN: 978-0-19-400201-1

Oxford EAP B2 (Oxford University Press), ISBN: 978-0-19-400178-6
